

THE 'SIX ON SIX' AWARD (c) K1SIX

'Resurrected by WN3SIX with the permission and by the courtesy of Bob, K1SIX, the originator of this fun award'

The Rules:

1. Only CONFIRMED CONTACTS, ANY MODE-- on SIX METERS after 6 June 1966 will be considered.
2. Contacts must be made via direct mode. Contacts via repeaters are not valid even if the repeater contains a "SIX" suffix.
3. Submit proof of TWO-WAY contacts with at least SIX different callsigns that contain the suffix: "SIX" *.
4. Stations operating portable outside their assigned DXCC entity (e.g. PA1SIX as I2/PA1SIX) will count as a separate callsign.
5. Endorsements are issued in increments of SIX (ie. 6, 12, 18, etc.) and a new certificate will be issued with the endorsement. Send photocopies, front and back of card, ONLY those QSLs that qualify you for the targeted endorsement- No more, no less. It is NOT necessary to send your valuable QSL cards, photocopies will be fine. All Certificates will be individually numbered and records maintained in a database.
7. Submit copies of QSLs and application fee to: WN3SIX at the most recent callbook address.
8. Recommended amounts are US \$3.00 for US and Canada, US \$4.00 for foreign (air). Award will be shipped in a sturdy mailer to insure the award is *NOT FOLDED*. For those that don't care: US and Canada \$2.00 and foreign air \$3.00 (Your award will be *folded* into an envelope. Please US \$ only- no IRCs *.
9. E-qsL submissions, photocopies and GIFS/JPEGs are now acceptable as long as the confirmation shows BOTH CALLS (along with the standard date/time/report/frequency) on a single side. E-mail WN3SIX prior to these type submissions for more information if you may have any questions. My e-mail address is: seven11@epix.net
10. If you wish an endorsement but do not really need a new certificate that's ok. It won't cost a dime. If you comply with the E-QSL submission requirement above, your new endorsement level will be promptly listed below.

* Please see "The Fine Print" at the end of this page.

PLEASE E-MAIL WN3SIX AT: wn3six@gmail.com FOR ANY LAST MINUTE POSTAL RATE CHANGES, ETC. BEFORE FINAL SUBMISSION

Each endorsement "level" will be color coded in the chart below. Level 1= 6, Level 2=12, Level 3=18, etc. The most recent individual that reaches the highest endorsement level will get a "flashing congratulations" here! From my calculations, 30 (Level 5) would be the "top gun" and a challenging and attainable goal.

THE FINE PRINT

WN3SIX will not be held responsible for lost or stolen submissions, QSLs or any other liabilities related to this FUN endeavor. No personal gain is intended. ANY gain realized will be donated to support the Six Meter Beacon Project. Effective February 2001: A US \$1.00 price increase for all and an option to "hold" the costs if you elect to receive a folded award. This to compensate for increased postal costs plus costs of the sturdy "mailer" to insure your award does not arrive folded. It is hoped that anyone that has a "SIX" suffix will show complete respect for well established six meter operating practices!

"Work 'em first, ask questions later". I am NOT an international attorney that is "practiced" in the rules and regulations governing international law when it comes to your Amateur License! If I happen to "catch" an illegal contact- it will be discredited if sufficient proof of an illegal QSO is received from the appropriate "authority". Should this occur, a new total will be calculated and posted. If you suffer a reduction that brings your total count of confirmed 'SIX's below the minimum qualifying amount of six, the certificate (or endorsement) you received will be considered VOID and you will be required to resubmit the appropriate amount of confirmations to bring you up to minimum award or endorsement level. Under these conditions, it could be possible to lose an award number completely and receive a new award with a NEW SEQUENTIAL NUMBER. The decisions of WN3SIX will be considered FINAL under such circumstances.

Best 73 & Good 6m DX!
Mark, WN3SIX (ex - WN3CDW)
